Nature Wine Food

Discover beautiful Slovenia

Slovenia is a place of dramatic scenery, delicious food and extraordinary wines. It's hidden between Austria, Italy, Croatia and Hungary and still relatively free of mass tourism. Not for long! Now is the time to visit! Join us and enjoy these highlights:

 Ljubljana, the capital. Our first evening is spent in this beautiful Baroque “Prague in miniature”.

 We spend our first 2 days and nights enjoying the beautiful hills and vineyards of the Goriška Brda, a region often compared to Tuscany. Here, amongst the cherry trees and vines you will meet local winemakers and learn about Slovenia's unique wine making heritage. Not only does this region produce white and red wine, it also specialises in a style known as orange wine. You will learn about this ancient wine-making technique as you taste these special wines. Your wine discovery will be paired with delicious food from the local region, direct from the producers.

 Last but not least we'll visit Kobarid, located in the heart of the Julian Alps. Here we focus on the incredible Soča river valley. You can join us on a couple of spectacular short, easy walks through Triglav National Park to visit river gorges, waterfalls and alpine scenery.
